How it works

1. **We build your site first.**
   You get a link to a finished design for your business within 48 hours. No deposit, no card.
2. **You say go.**
   We connect your domain and phone number. Your site is live the same day; edits are a text away.
3. **The AI starts answering.**
   On Growth and up, every missed call gets a text back in seconds and your AI receptionist books jobs 24/7, in your voice.
4. **You see every lead.**
   Calls, texts, bookings and payments land in one simple dashboard, with a weekly summary by text.

Why owners switch

You never miss a job again.
Most local businesses miss 1 in 4 calls. One recovered job a month covers the plan.

Nothing to learn.
We set everything up and run it. You keep doing the work.
